Subject: FW: Fuel RFQ, Plant Services worker present at delivery
Attachments: 02_Fuel Projected Usage.xls; Attachment C attach_itemizedprice.doc; Attachment C tax rate Attach_Misc.doc; Attachment C Vehicle Info Attach_Seller.doc; Cover.Doc; RFQ.Doc; Supplemental 02 attach_B-Terms.doc

See "Supplemental 02 attach_B-Terms" below, item 3g. It says a Plant Services Employee must be present for each gasoline delivery. Is that current practice?

Per Mike Broughton, the Procurement Agent, the new fuel contract has been awarded to Nelson Petroleum. Mike said that there is no longer a "PO". Instead, there is a "CPA" or Contract Purchase Agreement. The CPA # is 16797. The pertinent part of the contract for our purposes is contained in Attachment B to the contract (see file titled "Supplemental 02 attach_B-Terms" below). This CPA is to be used for all fuels (including gasoline) except Oil #6 and PS300. I plan to print out a copy of Attachment B and file it along with a reference to the CPA # to document compliance with our low sulfur requirement, fuel oil specification requirements under Reg. I, 9.08(a), gasoline delivery requirements, etc.
